

Q-cip 2008 Workshop

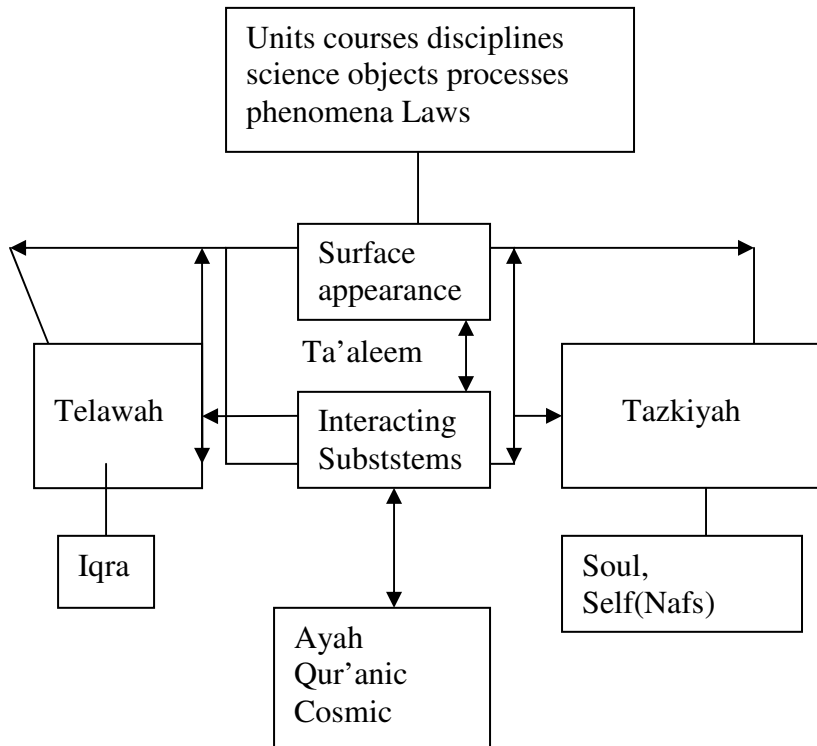

by Dr. Mohammed Saleh

(Saturday March 22, 3:30-5)

This Workshop was about Qur'an Curriculum Integration Project. Dr. Saleh built the Q-Cip model on: ←

“Our Lord! Send amongst them a messenger of their own. Who shall recite Your Signs (Aayaat) to them and teach them the Book and Wisdom, and purify them: For You are the Exalted in Might, the Wise.” (2: 129)

And the model is:

Samia Ramzi
April 7, 2008

He explained how to make connection between Qur'anic Ayat:

- Program: academic/ non academic
- Subject: language, mathematic, science, etc.
- The unit: He took an example, Aya 16:68-60 and he explained how we can do a complete unit about the Honey Bee.
- The lesson: he gave many examples to show how we can start our lesson plan by choosing a related Aya.

I liked this idea of the workshop because it shows how the Qur'an is for living and learning but I think it needs to design a special curriculum for the school subjects at the Islamic schools and teachers training. In my opinion, if the teacher has a strong Qur'anic knowledge, she can apply Dr. Saleh's idea in her lesson.
